He didn't think that the Republicans would be able to seat any of their contesting members, except possibly it might be one, or possibly two, of the West Virginia contestants. If the Republicans expect to seat any of their contestants they will have to keep a quorum of their own side present all the time as it is possible that upon the roll call the Democrats will refrain from voting, and it looks as if on the slender margin the Republicans have it will be next to impossible for them to keep a quorum present or even to muster that many votes at any one time. The only hope they have is that some more of the conscientious minority, who may be opposed to fillbustering, will vote in the negative. This last killing created a great deal more excitement and the people were afraid of a raid upon the town by the negroes. The acting sheriff wired Gov. James P. Eagle that fact and asked that a company of militia be ordered there. The Governor replied that he thought the civil authorities could preserve the peace, and he did not want to order the militia unless all other means failed.

dation for twelve thousand at Neuilly. There were fifteen thousand present at the opening performance. At 2:30 precisely the President of the Republic, accompanied by Mme. Carnot, General Brugere and Colonel Lichtenstein, arrived at the private gate, which was thrown open for their carriage. The Mayor of Neuilly and Crawford were waiting to receive them. General Brugere told Crawford that as the President would not be able to remain long on account of another appointment, he and Mme. Carnot would prefer to visit the camp. The Indians were already behind the scenes ready for action. Fifty tents were empty, but President Carnot examined them with interest, and asked questions respecting the mode of living

The Cage Containing the Animals Wrecked by a Passenger Train. The Animals Captured After Enjoying a Brief Liberty.

CHICAGO, May 19.-Two gray wolves mountain lion, and a panther had a brief spell of liberty, and for half an hour explored the streets of Chicago last night at their will. The passenger train on the Chicago and Evanstown railroad had dashed past the intersection of Div-ision and Halstead streets just as the wagons belonging to a circus were cross

oaded with wild animals, and smashed it to atoms, throwing the driver a distance of 15 feet. He was stunned by the shock and lay unconscious on the street while the former occupants of the wagon lberated from the various compartments scattered in all directions. At last, however, they succumbed to the influence of the whips and were carried off by the circus men and submitted to imprisonment in an undamaged case. Few citizens who caught sight of the beasts had a bad scare. Fortunately the district is not thickly settled, and there were not many people on the streets. The injuries of the driver, Chamberlain, were severe, but not fatal.

Something had to be done, for a plurality of wives could be provided for under one roof, but a family segregated would work a hardship upon some one, so the humane idea was promoted, and Congress passed an act for the erection of an industrial home for the widows-in-law and their young children, with light employment and the freedom of homes, upon their renouncement of polygany.

For two years a rented huilding has been every liberally patronized. Personal pride has much to do with it, and wives forced to abandon their homes have in many cases gone back to their paternal home or struck out and commenced carning for themselves. Oil and Gas.

These two paragraphs appear in the Steubenville *Herald!*
Oil rigs are up in the north end of the county for the purpose of putting down test wells, and the feeling among both oil men and farmers is very hopeful for a paying oil field. Property is still being leased and other competitors are coming into the field.

It is reported that the drillers have struck a flow of gas at the new oil well near Holliday's Cove. The drilling has only begun and the tools were only down ninety feet when a reservoir was met, from which is coming a very strong pressure of gas. This is only the surface gas and will soon exhaust itself.
